Title: Lock Ring Reverse Thread Notice for Schwinn Airdyne Wedge Pin Style Bottom Bracket

Date: October 12, 2015

REMINDER:

LOCK RING HAS A LEFT HAND THREAD

- The Schwinn Airdyne wedge pin style bottom bracket has a lock ring with a reverse thread.
 - Be sure to remove and install the lock ring for your bottom bracket in the proper direction.
- Failing to do so can damage the threading and/or cause the lock ring to become irremovable.
- To tighten your lock ring, turn the lock ring counter clockwise.
- To loosen the lock ring please turn the lock ring clockwise.
