

## Product Support Bulletin

### **Title: Replacement Belting for Body Masters Strength Equipment**

**Date: 10/19/09 ml**

Body Masters Strength equipment uses 3 different types of belting and it is very important when servicing the equipment, the proper replacement belt is used.

The following machines use only the blue and white “Spectra” belt which is approximately ½ inch wide:

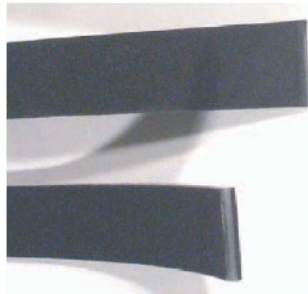

MD 114 Multi Hip  
MD 114A Multi Hip  
S 114A Multi Hip  
MD 211 Torso Rotation  
S 600 Wristmaster

SPORTSMITH Does Not Offer  
Spectra Belt

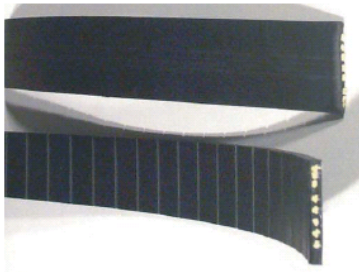

The following machines use only the Seigling polyamide GT40 belt which is 15/16 inch wide and 3.5 mm thick:

MD 212 Lat Pulldown  
MD 212A Lat Pulldown  
S 212A Lat Pulldown  
MD 214 Low Row  
MD 214A Low Row  
CX 214 Low Row  
Master Trainer IA Lat Pulldown  
SMTM Super Multi-Trainer Lat pulldown  
SMTM Super Multi-Trainer Low row  
SMTM Super Multi-Trainer Tricep  
CM 240 Circuit Master Lat Pulldown  
CM 242 Circuit Master Low Row  
CM 226 Circuit Master Triceps Press

Polyamide Belt  
SS Part: P16010

All other Body Master belt driven machines use only the Mectrol kevlar belt which is 15/16 inch wide (pictured below):

Kevlar Belt  
SS Part: P00ICB10758

 **WARNING**

Failure to use the proper belt, or failure to replace belts after 1 year can cause serious injury or even death!
